

I have to do research today

I get to do research on something important today

I just don't get it

i don't get it yet so I'll ask for help

**I have to work harder
I'm willing to work harder**

Failure means i stop trying

failure is an opportunity to learn

I stick to what i know

challenges and trying new things will help me grow

I made a mistake

I learned a lesson

you're either good at something or you're not

I will practice until i get better
