ACHA, the nation's principal advocate and leadership organization for college and university health, represents a diverse membership that provides and supports the delivery of health care and prevention and wellness services for the nation's 20 million college students. For more information about the association's programs and services, visit www.acha.org, and www.acha.org/NCHA.

Introduction and Notes

The ACHA-National College Health Assessment (ACHA-NCHA) is a national research survey organized by the American College Health Association (ACHA) to assist college health service providers, health educators, counselors, and administrators in collecting data about their students' habits and behaviors on the most prevalent health topics. The ACHA-NCHA now provides the largest known comprehensive data set on the health of college students, providing the college health and higher education fields with a vast spectrum of information on student health.

ACHA initiated the original ACHA-NCHA in 2000 and the instrument was used nationwide through the Spring 2008 data collection period. A revised survey, the ACHA-NCHA-II, was in use from Fall 2008 - Spring 2019 data collection periods. The survey was redesigned again, and data collection with the ACHA-NCHA III began in Fall 2019.

Please note that it is not appropriate to compare trends between versions of the survey. Directly comparing data points between the Original ACHA-NCHA, the ACHA-NCHA II, and the ACHA-NCHA III can lead to an erroneous conclusion and is not recommended.

Notes about this report:

1. Missing values have been excluded from analysis and only valid percents are included in this document, unless otherwise noted.
2. **The ACHA-NCHA III is programmed differently than earlier versions of the survey.** Rather than asking the respondents to answer every question (and offering a "not applicable" option), display logic was used throughout the survey to determine whether, based on their response to an earlier question, the student saw a follow-up question. This makes the valid percents of certain questions impossible to apply to the entire sample, as the denominator used was limited to only the number of students that saw the question. When appropriate, results are also presented using the entire sample as the denominator to show the proportion of the overall sample that experienced a particular issue. These differences in presentation are carefully noted throughout the document and will often explain differences observed between this document and the full data report. Please look carefully at descriptions of the data presented in each table, as well as any footnotes included.
3. **About the use of sex and gender in this report:** Survey results are reported by sex based on the responses to questions 67A, 67B, and 67C. The responses to these questions are used to create a new variable called RSEX. RSEX is used for organizing results in the ACHA-NCHA report documents. Respondents are reported as cis men or cis women only when their responses to 67A, 67B, and 67C are consistent with one another. If gender identity is consistent with sex at birth AND "no" is selected for transgender, then respondents are designated as either cis men or cis women in RSEX. If respondents select "yes" for transgender OR their sex at birth is not consistent with their gender identity, then they are designated as transgender/gender non-conforming in RSEX. A respondent that selects "intersex" for sex at birth, "no" for transgender, and man or woman for gender identity are designated as cis men or cis women in RSEX. A respondent that selects "intersex" for sex at birth, "yes" for transgender, or selects a gender identity other than man or woman are designated as transgender/gender non-conforming in RSEX. A respondent that selects "another identity" on 67C is designated missing in RSEX. A respondent that skips any of the three questions is designated as missing in RSEX. Totals displayed in this report include missing responses. Please see the ACHA-NCHA III survey codebook for more information about how data on sex and gender are coded.

For additional information about the survey's development, design, and methodology, email Mary T Hoban, PhD, MCHES, (mhoban@acha.org), Christine Kukich, MS (ckukich@acha.org), or visit www.acha-ncha.org.

We need to draw your attention to an important change in your ACHANCHA Report documents. Beginning in Spring 2021, responses for transgender and gender nonconforming students are readily available directly in the report documents. This represents an important change in the way we have been reporting ACHANCHA results. We've prepared the following information to better explain the specific changes, our reasoning for doing so, and tips for using these redesigned report documents.

I. What we've done to date

The ACHANCHA has asked respondents about their gender identity for 12 years.

Data on transgender and gender nonconforming (TGNC) students was available in the data file, but not displayed explicitly in the report documents in an effort to protect the privacy of TGNC students, particularly those students in smaller campus environments and at schools that publicly shared their ACHANCHA report documents.

II. Why change?

III. What's different about the way we are reporting?

The "missing/unknown" column in the Data Report document has been replaced with a "Trans/Gender Nonconforming" column. Because of space limitations in the report prevent us from displaying all 4 categories plus a total column in the same document, it's now the "missing/unknown" column that is not displayed. Now when the Total of any given row is higher than the sum of the cis men, cis women, and TGNC respondents, the difference can be attributed to "missing/unknown" respondents that selected the response option presented in that row. A column for "Trans/Gender Nonconforming" has been added to the Executive Summary Report document.

IV. Important considerations with this new format

Think about the implication of working with and documenting very small samples— from the perspective of making meaningful interpretations, as well as the privacy of respondents. This is true of all demographic variables and not limited to gender identity. You may consider a minimum cell size or another threshold by which you make decisions about making your Institutional Data Report publicly available. It is less of a concern in your Institutional Executive Summary as we only display the percentages with the overall sample size.

[3] Ciswomen is short for "cisgender women" and is a term used to describe persons who identify as women and were assigned female at birth.

Findings

A. General Health and Campus Climate

44.0 % of college students surveyed (54.2 % cis men, 40.2 % cis women, and 36.7 % transgender/gender non-conforming)

Cis Men n = 695
Cis Women n = 1627
Trans/GNC n = 118

Students meeting the recommended guidelines for physical activity

Based on: US Dept of Health and Human Services. Physical Activities Guidelines for Americans, 2nd edition.
Washington, DC: US Dept of Health and Human Services; 2018

Cis Men n = 695
Cis Women n = 1627
Trans/GNC n = 118

Definitions:

Active Adults meet the recommendation for strength training **AND** aerobic activity

	Cis Men	Cis Women	Trans/ Gender Non-	Total
Percent (%)				

Cis Men n =	695
Cis Women n =	1627
Trans/GNC n =	118

College students reported:

	Percent (%)	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
Flu vaccine within the last 12 month		42.9	47.7	61.9	47.0
Not starting the HPV vaccine series		24.5	17.8	14.4	19.5
Starting, but not completing HPV vaccine series		3.5	5.1	4.2	4.6
Completing HPV vaccine series		33.9	47.6	55.9	44.1
Not knowing their HPV vaccine status		38.1	29.4	25.4	31.7
Ever having a GYN visit or exam (females only)			42.9	33.1	
Having a dental exam in the last 12 months		63.1	67.8	62.7	66.3
Being tested for HIV within the last 12 months		11.4	12.0	20.3	12.3
Being tested for HIV more than 12 months ago		9.6	9.4	12.7	9.6
Wearing sunscreen usually or always when outdoors		20.3	52.7	36.4	42.6
Spending time outdoors with the intention of tanning at least once in the last 12 months		29.3	37.7	25.9	34.7

D. Impediments to Academic Performance

Respondents are asked in numerous places throughout the survey about issues that might have negatively impacted their academic performance within the last 12 months. This is defined as negatively impacting their performance in a class or delaying progress towards their degree. Both types of negative impacts are represented in the figures below. Please refer to the corresponding Data Report for specific figures on each type of impact. Figures in the left columns use all students in the sample as the denominator. Figures in the right columns use only the students that experienced that issue (e.g. students who used cannabis, reported a problem or challenge with finances, or experienced a particular health issue) in the denominator. (items are listed in the order in which they appear in the survey)

Negatively impacted academic performance among all students in the sample

	Percent (%)	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
Alcohol use		3.5	1.6	3.4	2.2
Cannabis/marijuana use		4.0	1.6	5.1	2.4

Negatively impacted academic performance among only students that experienced the issue

	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
	5.2	2.3	4.7	3.2
	14.1	4.9	11.5	7.7

Problems or challenges in the last 12 months

	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total

 Trans/GNC n = 118

E. Violence, Abusive Relationships, and Personal Safety

Within the last 12 months, college students reported experiencing:

Percent (%)	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
	3.5	1.4	3.4	2.1
	1.9	1.7	5.1	2.0
	11.3	7.8	16.9	9.3
	2.5	4.0	10.2	3.9
	1.0	1.6	4.2	1.6
	0.9	1.1	5.9	1.3
	2.4	4.6	6.8	4.1
	11.3	9.1	12.7	9.8
	8.0	5.0	6.8	5.9
	4.1	2.0	3.4	2.7

Cis Men n = 695
Cis Women n = 1627

Cis Men n =	695
Cis Women n =	1627
Trans/GNC n =	118

***Proportion of students who were prescribed a medication and used more than prescribed or more often than prescribed in the past 3 months**

Percent (%)	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
Prescription stimulants	1.9	0.6	2.5	1.1
Prescription sedatives or sleeping pills	1.3	0.9	0.8	1.0
Prescription opioids	0.7	0.1	0.8	0.3

*These figures use all students in the sample as the denominator, rather than just those students who reported having a prescription. The title of this table was changed in Fall 2022, but the figures remain the same.

***Tobacco or nicotine delivery products used in the last 3 months**

Percent (%)	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
Cigarettes	6.5	4.2	10.2	5.1
E-cigarettes or other vape products (for example: Juul, etc.)	12.9	9.5	11.0	10.5
Water pipe or hookah	2.9	1.2	3.4	1.7
Chewing or smokeless tobacco	1.3	0.2	0.8	0.6
Cigars or little cigars	3.7	0.7	0.0	1.5
Other	0.1	0.2	1.7	0.2

*These figures use all students in the sample as the denominator, rather than just those students who reported tobacco or nicotine delivery product use in the last 3 months.

Students in Recovery

■ 2.4 % of college students surveyed (2.8 % cis men, 2.0 % cis women, and 5.4 % transgender/gender non-conforming) indicated they were in recovery from alcohol or other drug use.

When, if ever, was the last time you:

Percent (%)	Drank Alcohol			
	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
Never	27.4	25.0	22.0	25.6
Within the last 2 weeks	41.1	39.2	33.9	39.5
More than 2 weeks ago but within the last 30 days	8.4	11.0	14.4	10.4
More than 30 days ago but within the last 3 months	8.8	10.9	12.7	10.4
More than 3 months ago but within the last 12 months	9.1	8.7	11.0	8.9
More than 12 months ago	5.3	5.2	5.9	5.3

*Students were instructed to include medical and non-medical use of cannabis.

Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
57.3	52.7	39.8	53.3
15.7	16.1	28.8	16.5
2.7	3.9	9.3	3.8
5.3	5.7	5.1	5.6
6.2	8.1	5.1	7.4
12.7	13.5	11.9	13.3

Driving under the influence

■ 11.4 % of college students reported driving after having any alcohol in the last 30 days.*
*Only students who reported driving in the last 30 days and drinking alcohol in the last 30 days were asked this question.

■ 27.1 % of college students reported driving within 6 hours of using cannabis/marijuana in the last 30 days.*
*Only students who reported driving in the last 30 days and using cannabis in the last 30 days were asked this question.

Estimated Blood Alcohol Concentration (or eBAC) of college students. Due to the improbability of a student surviving a drinking episode resulting in an extremely high eBAC, all students with an eBAC of 0.50 or higher are also omitted from these eBAC figures. eBAC is an estimated figure based on the reported number of drinks consumed during the last time they drank alcohol in a social setting, their approximate time of consumption, sex, weight, and the average rate of ethanol metabolism. Only students who reported drinking alcohol within the last 3 months answered these questions.

Estimated BAC	Percent (%)	Cis Men	Cis Women	Trans/ Gender Non- conforming	Total
< .08		86.5	86.1	88.6	86.3
< .10		90.8	89.4	92.9	89.9

Cis Men n =	695
Cis Women n =	1627
Trans/GNC n =	118

J. Ongoing or Chronic Conditions

The questions for the ongoing or chronic conditions are presented differently in this report than the order they appear in the survey. In the survey, all items appear in a single list, ordered alphabetically. In this report, the conditions are presented in groups to ease burden on the reader. The findings are divided into mental health conditions, STIs and other chronic infections, and other ongoing or chronic conditions in this report.

Mental Health	College students reported ever being diagnosed with the following:			
	Percent (%)	Cis Men	Cis Women	Trans/ Gender Non-conforming
ADD/ADHD - Attention Deficit/Hyperactivity Disorder	6.7	6.8	19.7	7.5
Alcohol or Other Drug-Related Abuse or Addiction	2.0	1.1	0.8	1.3
Anxiety (for example: Generalized Anxiety, Social Anxiety, Panic Disorder, Specific Phobia)	12.0	27.5	44.1	23.9
Autism Spectrum	1.6	1.0	6.0	1.5
Bipolar and Related Conditions (for example: Bipolar I, II, Hypomanic Episode)	1.0	2.1	6.8	2.0
Borderline Personality Disorder (BPD), Avoidant Personality, Dependent Personality, or another personality disorder	0.4	1.4	3.4	1.2
Depression (for example: Major depression, persistent depressive disorder, disruptive mood disorder)	10.9	20.8	42.7	19.1
Eating Disorders (for example: Anorexia Nervosa, Bulimia Nervosa, Binge-Eating)	1.0	4.2	14.7	3.8
Gambling Disorder	0.1	0.2	1.7	0.2
Insomnia	2.9	5.1	13.7	4.9
Obsessive-Compulsive and Related Conditions (for example: OCD, Body Dysmorphia, Hoarding, Trichotillomania and other body-focused repetitive behavior disorders)	1.2	3.0	8.5	2.8
PTSD (Posttraumatic Stress Disorder), Acute Stress Disorder, Adjustment Disorder, or another trauma- or stressor- related condition	2.0	6.1	11.0	5.3
Schizophrenia and Other Psychotic Conditions (for example: Schizophrenia, Schizoaffective Disorder, Schizophreniform Disorder, Delusional Disorder)	0.6	0.5	1.7	0.6
Tourette's or other neurodevelopmental condition not already listed	0.0	0.4	1.7	0.3
Traumatic brain injury (TBI)	0.6	0.7	1.7	0.7

***Of those ever diagnosed, those reporting contact with healthcare or MH professional within last 12 months**

Cis Men	Cis Women	Trans/ Gender Non-conforming	Total

4.2	4.6	10.2	4.8	

Cis Men n = 695
 Cis Women n = 1627
 Trans/GNC n = 118

STI's/Other chronic infections

Percent (%)	Trans/				Trans/			
	Cis Men	Cis Women	Gender Non-conforming	Total	Cis Men	Cis Women	Gender Non-conforming	Total
	0.3	1.1	0.9	0.9	50.0	41.2	0.0	38.1
	0.9	0.3	0.0	0.5	66.7	20.0	0.0	45.5
	0.4	0.2	0.0	0.2	100.0	33.3	0.0	66.7
	0.7	2.7	4.3	2.2	60.0	46.5	40.0	47.2

*Only students who reported ever being diagnosed were asked about contact with a healthcare or mental health professional in the last 12 months.

Other Chronic /Ongoing Medical Conditions

	Trans/				Trans/			
	Cis Men	Cis Women	Gender Non-conforming	Total	Cis Men	Cis Women	Gender Non-conforming	Total
	19.9	27.1	22.0	24.8	39.3	44.5	37.5	43.1
	6.8	10.0	11.2	9.2	17.0	33.5	15.4	29.6
	8.4	11.1	13.6	10.5	12.1	34.5	12.5	28.1
	17.4	24.1	31.9	22.6	23.5	38.7	13.9	33.8

Cis Men n = 695
 Cis Women n = 1627
 Trans/GNC n = 118

Students who reported being diagnosed with diabetes or pre-diabetes/insulin resistance, indicated they had:

Percent (%)	Cis Men	Cis Women	Trans/	
			Gender Non-conforming	Total
	21.4	13.0	40.0	18.6
	26.7	13.0	0.0	14.3
	70.6	79.6	72.7	76.8
	7.1	4.3	22.2	7.2

K. Sleep

Reported amount of time to usually fall asleep at night (sleep onset latency):

Percent (%)	Cis Men	Cis Women	Trans/	
			Gender Non-conforming	Total
	46.0	39.5	35.6	41.2
	25.4	25.8	22.9	25.6
	28.7	34.7	41.5	33.2

Over the last 2 weeks, students reported the following average amount of sleep (excluding naps):

Percent (%)	Trans/				Trans/			
	Cis Men	Cis Women	Gender Non-conforming	Total	Cis Men	Cis Women	Gender Non-conforming	Total
	55.8	49.5	57.6	51.9	27.0	26.8	26.3	27.0
	43.1	48.7	41.5	46.6	65.9	64.5	64.4	64.8
	1.2	1.7	0.8	1.5	7.12.5			
	Cis Men	Cis Women	Gender Non-	Total	Cis Men	Cis Women	Gender Non-	Total

Demographics and Sample Characteristics

■ Age		■ Students describe themselves as	
18 - 20 years:	33.4 %	Straight/Heterosexual:	76.5 %
21 - 24 years:	39.0 %	Asexual:	0.8 %
25 - 29 years:	14.7 %	Bisexual:	10.9 %
30+ years:	12.9 %	Gay:	2.0 %
Mean age:	23.9 years	Lesbian:	2.3 %
Median age:	22.0 years	Pansexual:	2.7 %
		Queer:	2.1 %
		Questioning:	2.5 %
		Identity not listed above:	0.2 %
■ Gender*			
Cis Women:	66.0 %		
Cis Men:	28.2 %		
Transgender/Gender Non-conforming:	4.8 %		
* See note on page 2 regarding gender categories			
■ Student status		■ Housing	
1st year undergraduate:	12.9 %	Campus or university housing:	10.2 %
2nd year undergraduate:	14.1 %	Fraternity or sorority residence:	0.6 %
3rd year undergraduate:	24.4 %	Parent/guardian/other family:	50.5 %
4th year undergraduate:	20.8 %	Off-campus:	36.0 %
5th year or more undergraduate:	9.2 %	Temporary or "couch surfing":	1.1 %
Master's (MA, MS, MFA, MBA, etc.):	15.3 %	Don't have a place to live:	0.0 %
Doctorate (PhD, EdD, MD, JD, etc.):	0.5 %	Other:	1.5 %
Not seeking a degree:	0.3 %		
Other:	2.4 %		
		■ Students describe themselves as	
Full-time student:	86.3 %	American Indian or Native Alaskan	1.9 %
Part-time student:	13.3 %	Asian or Asian American	29.2 %
Other student:	0.4 %	Black or African American	4.8 %
		Hispanic or Latino/a/x	45.0 %
■ Visa to work or study in the US:	12.5 %	Middle Eastern/North African (MENA) or Arab Origin:	2.3 %
		Native Hawaiian or Other Pacific Islander Native:	0.8 %
■ Relationship status		White:	23.3 %
Not in a relationship:	51.4 %	Biracial or Multiracial:	6.4 %
In a relationship but not married/partnered:	41.2 %	Identity not listed above:	1.7 %
Married/partnered:	7.4 %		
■ Primary Source of Health Insurance		If Hispanic or Latino/a/x, are you	
College/university sponsored SHIP plan:	6.3 %	Mexican, Mexican American, Chicano:	86.1 %
Parent or guardian's plan:	48.6 %	Puerto Rican:	1.6 %
Employer (mine or my spouse/partners):	10.7 %	Cuban:	0.8 %
Medicaid, Medicare, SCHIP, or VA:	22.5 %	Another Hispanic, Latino/a/x, or Spanish Origin:	18.4 %
Bought a plan on my own:	2.8 %		
Don't have health insurance:	4.1 %	If Asian or Asian American, are you	
Don't know if I have health insurance:	1.9 %	East Asian:	30.1 %
Have insurance, but don't know source:	2.9 %	Southeast Asian:	59.7 %
		South Asian:	14.2 %
■ Student Veteran:	1.2 %	Other Asian:	1.0 %
■ Parent or primary responsibility for someone else's child/children under 18 years old:	6.3 %		

■ **First generation students** 60.7 %
(Proportion of students for whom no parent/guardian have completed a bachelor's degree)

■ **Do you have any of the following?**

Attention Deficit/Hyperactivity Disorder (ADD or ADHD):	9.7 %
Autism Spectrum Disorder:	1.8 %
Deaf/Hearing loss:	1.6 %
Learning disability:	2.8 %
Mobility/Dexterity disability:	1.0 %
Blind/low vision:	5.3 %
Speech or language disorder:	1.1 %

■ **Participated in organized college athletics:**

Varsity:	1.6 %
Club sports:	3.7 %
Intramurals:	3.0 %

■ **Member of a social fraternity or sorority:**

Greek member:	4.5 %
