N. Attendance Procedures

Please read the CSULB attendance policy carefully. It can be found at:

<http://www.csulb.edu/~senate/Policies/01-01.html>

ATTENDANCE IS VERY STRONGLY RECOMMENDED. Experience has shown that good grades are strongly correlated with attendance, practice and participation.

1. Absences **DO NOT** exempt students from academic requirements.
2. An "Incomplete Grade" may be granted if the student has a passing grade, but only if the instructor determines that it is feasible for the student to successfully complete remaining assignments after the semester. Pursuant to university policy, such determinations are within the discretion of the instructor. R
3. Make-up Policy: Students that are participating in school sponsored events (e.g., athletics, professional conferences, academics) need to turn in/complete assignments and readiness assessments tests **AHEAD** of time or by the due date. **Make-up assignments will be determined case-by-case.** If unable to participate during class due to illness or injury, an alternative in-class activity option will be given by the instructor. If unable to participate during class due to illness or injury, an alternative in-class activity option will be given by the instructor.

O. Deadlines

All assignments must be submitted the day they are due by **6:00pm**. Assignments

phones, beepers, IPODS, Palm Pilots, PDA's and similar devices that disrupt the class or the instructor, can be held by the instructor until the class period has ended.

R. Sample Cheating and Plagiarism Policy

Academic integrity is the foundation of the academic community. Because each student has the primary responsibility for being academically honest, students are advised to read and understand all sections in CSULB catalog. Academic dishonesty includes **cheating, plagiarism, falsifying academic records, and other acts intentionally designed to provide unfair advantage to the student or the attempt to commit such acts.** If you are found to be cheating or plagiarizing, you will be subject to disciplinary action as per the policy outlined in the CSULB catalog.

- **Cheating** includes, but is not limited to intentionally giving or receiving unauthorized aid or notes on examinations, papers, or class assignments intended to be individually completed. Cheating also includes the unauthorized copying of tests or any other deceit or fraud related to the student's academic conduct.
- **Plagiarism** occurs when a student obtains someone else's work and presents those ideas or words as her or his own academic work.
- **Collusion** occurs when a student collaborates with another person without authorization when preparing an assignment.
- **Fabrication** occurs when a student makes up data or results and records or reports them.
- **Falsification** occurs when a student manipulates research materials, equipment, or processes or changes or omits results such that the research is not accurately reflected in the research record.
- **Falsifying academic records** includes, but is not limited to altering grades or other academic records.

Furthermore, students should be aware that faculty members have a range of academic actions available to them in cases of cheating and plagiarism from arranging a conference, to failing a student on that particular work, to failing a student in a course, to referring the case to judicial affairs.
