 - f Use the dropdown menus to navigate between tables. Preset table names correspond to the required tables in the UPRC report checklist template
 - x Some tables have sub dropdown menus; take care to select the correct values.
 - f Graphs available are only depictions of the available data from the table.
 - f Things for reviewers to pay attention to: trends and totals
 - f For comparisons with college analysis, UPRC reviewers will need to consult IR&A Campus Enrollment Dashboard <https://www.csulb.edu/institutionalresearch/analytics/campusenrollment>
 - f Note: graduation rates displayed for departments only report information on students who graduated with majors from that department. I.e. Low figures in graduation rate tables do not mean that students who entered that department did not graduate at all; they might have graduated with a major from another department.
 - f UPRC members should know that deep data dives can be done upon request; it is not the responsibility of a member to pull data that is not available on a public dashboard or on the PARC dashboards.
 - f Information about graduation targets set by the CSU is available on various “Graduation Initiative 2025” pages <https://www2.calstate.edu/cs/system/whythe-csu>
