Factors to Consider

- Your career goals: short-term and long-term
- Time: Master's programs (1-3 yrs); PhD (5-6 yrs); Law (3 yrs)
- Cost / Funding: scholarships, fellowships, grants, loans
- Convenience: location, travel
- Life / Family / Other intangibles

- Approximately 5,000 students
- Over 100 graduate program options across 65 fields
- 4 doctoral programs
- Standard graduate tuition ~\$8,300 per year for full-time students
- Need-based financial aid available for most graduate programs!

- Master's degree
- Ph.D. with master's built in (master's degree typically obtained during year 1 & 2 of doctorate upon completion of qualifying exam/comprehensive exam).
- Ph.D. degree

Master's degrees

Offered in many fields of study, and vary in coursework and career trajectory

- Two general types of Master's degrees

Non-terminal master's degrees: designed to lead 21 (gned)-13.4(nal)--6.7oc(:)-

Specialist degrees

- Prepare students for professional certificates, credential or licensing requirements (e.g., credential for becoming a K-12 teacher, counselor, or principal).
- Often earned in addition to a master's degree and will require additional coursework, training, or internship experience.

Doctorate degrees – Ph.D.

- Focus on the creation of new knowledge via independent

- Ph.D. recipients typically pursue faculty positions at 4-year universities and/or work in research
- Ph.D. generally takes 5-6 years to complete

I'm graduating soon, when can I apply?

- Get an early start – recommended students begin preparing to applying more than one year before you begin program.
- Application deadlines at many colleges are often 9-10 months before program begins.
 - *Example:* CSULB M.S. Industrial/Organizational Psychology program begins for fall. The application deadline for the program is

- Many master's, doctoral, and credential programs do ***not require*** full-time work experience, but work experience can help – especially if it is relevant to the field you are applying
- Examples of programs that often prefer/require relevant work experience
 - Master of Business Administration (MBA)
 - Master of Public Administration (MPA)
 - Education Doctorate (EdD)
 - Doctorate of Physical Therapy (DPT)

- Application/Transcripts
- Entrance Exam (e.g., _____, LSAT, GMAT, CSET)
- Statement of Purpose or Personal Statement (2-5 pages)
- Resume/CV
- Letters of Recommendation (3 generally recommended)
- Writing Sample
- Funding (e.g., scholarships, fellowships, grants, loans)

- Most applications are online and cost from \$70 - \$90 (fee waivers are available for some schools)
- CSULB application is composed of two parts: (1) Cal State Apply application and (2) separate application to specific program
- Should be sent to each college you apply
- Send transcripts from each school you attended beyond high school (e.g., community college, CSULB)

- ***What is the minimum GPA for graduate school?***
 - CSU system: 2.5 or higher
 - UC system: 3.0 or higher
 - Private schools: Varies

- ***Will I need to interview to get accepted to a program?***
 - Most masters programs do ___ require an interview
 - Examples of fields that may require an interview: counseling, K-12 teaching, business, and occasionally STEM fields

- - Magoosh – online service (\$79-179)
 - College of Professional & International Education (CPIE) – on campus (\$500)
 - Kaplan, Princeton Review, Manhattan Prep (\$800+)
- - Long Beach Public Library
 - Crunch Prep (33 free practice tests)
 - GSRC prep workshops

Frequently Asked Question

- ***What is an acceptable GRE score for applying to Ph.D. programs?***
 - Math & Verbal: typically 150 and above
(score varies by test date)
 - Analytical Writing: generally 4.5+ for competitive programs)

- GPA and Exam Scores are telling, but limited...
- Indicator of whether you “fit” within a program/field
- Sample of your ability to write
- Serves as a proxy for interview
- Can be the difference in getting accepted
- Opportunity to sell yourself!

(2-5 pages)

- Reviewed by admissions committee (i.e., faculty in your program)
- General areas to cover
 - Personal background (only if it is relevant)
 - Your educational / professional experience (e.g., work experience, research experience)
 - Why you are a good fit for the program
 - What you plan to contribute to your area of study/field
 - Your future professional goals

- Resume/CV (Curriculum Vitae)
 - Focus on academic/scholarly work – research, scholarly presentations (e.g., professional conference), professional affiliations (e.g., AERA, ASHE)
 - Include work/volunteer experience, particularly if relevant
 - Keep formatting simple
 - Have people in your network proofread

- Letters of Recommendation
 - Typically 3 required
 - Who to ask? Faculty, work/volunteer supervisors
 - How to ask? In-person (email, only if in-person is not possible)
 - What to provide recommender? A list with names of programs, deadlines, resume/CV, draft of statement of purpose
 - When to ask? 2 months before you need them

- Funding your graduate studies
 - Scholarships: on-campus and external scholarships
 - Grants (similar to scholarships): CSU students can receive University Grant covers most of tuition (approx. \$7k/year); need-based
 - Fellowships: may cover all tuition/fees and offer stipend; typically involves work as research assistant, intern, or teaching assistant (very common for doctoral studies)
 - Loans: Similar to undergrad loans, repayment begins 6 months after graduation

- Make your time at CSULB worthwhile...
 - Join clubs/organizations that support students on the path to grad school
 - Building your resume/CV through research experience, internships related to your field
 - Community service/volunteer work in your field
 - Research different graduate programs and offerings
 - Learn about the application process and create timelineGet an early start!
